

# REAL ESTATE PHOTOGRAPHY

You want to sell homes quicker, faster and for more. And knowing that 92% of buyers begin their home searches online it makes it important that your listings are part of this virtual and visual world. Next to having a great agent, images and videos are becoming an important factor in selling homes.

CutBoard Studio provides competitive prices on both residential and commercial real estate photography. Below you will find three of our most popular photography packages. If you're looking for other photography or design services let us know and we will create a custom package for you.

We understand as Realtors you assume a lot of risks. Once you acquire a listing you want to do the best for your sellers. At CutBoard we understand this risk, so we want to be able to share it with you. **We only require a down-payment of ½ the selected package cost. The remaining balance only becomes due after the home closes with you. Your risk is our risk too.**
